**Statement from Mayor Becker, Mayor Corroon and District Attorney Miller
Regarding Possible Partnership Opportunities**

We are very enthusiastic about exploring all possible options for saving tax payers money through efficient planning. We will explore the feasibility of locating Salt Lake City's Public Safety complex and the Salt Lake County District Attorney nearby or perhaps at a shared site. As a result of our initial conversations, we determined the shared site concept merits further study and we are all in agreement that there is great benefit to housing both facilities near the Matheson Courthouse.
